SOURABH GURAV

Mumbai, India | +91 9082457927 | sourabhgurav23@gmail.com
GitHub | LinkedIn | LeetCode | Medium Blog

PROFILE SUMMARY

- Self-taught Software Engineer skilled in building and optimizing RESTful and GraphQL APIs using Django and FastAPI.
- Experienced with MySQL, MongoDB, Celery, Redis and performance-focused backend development.
- Strong foundation in Python, Data Structures & Algorithms (DSA) and Object-Oriented Programming (OOP) principles.
- Proven track record of solving production issues, optimizing system performance and independently owning scalable backend designs serving 20K+ users.

WORK EXPERIENCE

Software Engineer Dec '24 - Present
Goflamingo Logistics Pvt Ltd

- Addressed 12+ critical performance bottlenecks and production issues across two live products serving 10K+ daily users.
- Independently owned the design and development of a scalable GraphQL backend capable of handling 10k+ req/sec.
- Introduced Kafka-based event processing and Redis caching to optimize performance (40% latency reduction).
- Implemented 2 dockerized services to streamline deployment and scalability.
- Solved stability and communication gaps by implementing critical bug fixes.

Backend Developer (Freelancer) Oct '24 - Dec '24
AI Chef Master

- Diagnosed and resolved database backend issues and communicated with overseas clients.
- Engaged in frontend development team, used ReactJS to ensure cohesive application logic.

System Engineer Aug '22 - April '24
Biocon Biologics

- Optimized system performance and ensured data integrity in production environments using Python and SQL.
- Driven data-informed improvements based on metric analysis using linear regression models.

TECHNICAL SKILLS

Backend:	Django, DRF, FastAPI, Flask, Strawberry GraphQL
Databases:	MySQL, MongoDB, SQLAlchemy, Redis
DevOps/Cloud:	Docker, AWS (EC2, S3, Lambda), Git, GitHub Actions
Languages:	Python (NumPy, Pandas), JavaScript, HTML, CSS, ReactJS
AI/ML:	PyTorch, Embedding Models, RAG, VectorDB, LLMs
Tools:	Kafka, Celery

PROJECTS

RAG-Driven Chat: Built an intelligent system translating natural-language prompts into optimized SQL queries, eliminating manual SQL writing.

GoProDairy: Solved operational inefficiencies by building a production-grade GraphQL web app with dashboards, dynamic pricing, and automated reporting.

Quizz: Created a DeepSeek-OCR-based platform converting PDFs into interactive, time-bound quizzes with automated extraction.

NGO Manager: Developed a Django-based platform for manual donation tracking and secure receipt delivery.

EDUCATION

M.Tech, Institute of Chemical Technology, Mumbai (CGPA: 9.49) 2020 - 2022
B.Tech, Mahatma Gandhi Mission's College, Navi Mumbai (CGPA: 8.54) 2016 - 2020
HSC, NAD Topiwala Junior College (Score: 83.4%) 2014 - 2016

ACHIEVEMENTS

- **Meta Back-End Developer Professional:** Linux, SQL, APIs, Cloud Hosting.
- **Google machine Learning for Developer Course:** Linear Regression, PCA, Data transformation, Neural Networks.
- **Coding:** 600+ submissions on LeetCode; **Rankings:** AIR 8 in GATB; AIR 552 in GATE BT.
- **Awards:** Gold Medal in Science Olympiad (City Level).
